

EGA

GEMİCİ ANEMOSTATLARI DISC VALVES (ALUMINUM)

Egevent EGA model gemici anemostadlar havalandırma sistemlerinde genellikle küçük mahallerin havalandırması için kullanılmaktadır. Alüminyumdan imal edilmiştir.

Standart kaplama işlemi Ral 9010 ve 9016 renk kodlarında elektrostatik toz boyama ile yapılmaktadır.

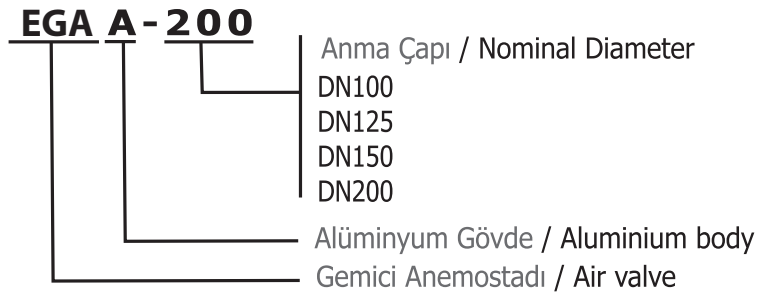

Talebe göre diğer renkler ve eloksallı kaplama da yapılabilmektedir. Standart olarak vidalı üretilir.

Egevent EGA model disc valves in ventilation systems are generally used for ventilation of small spaces.

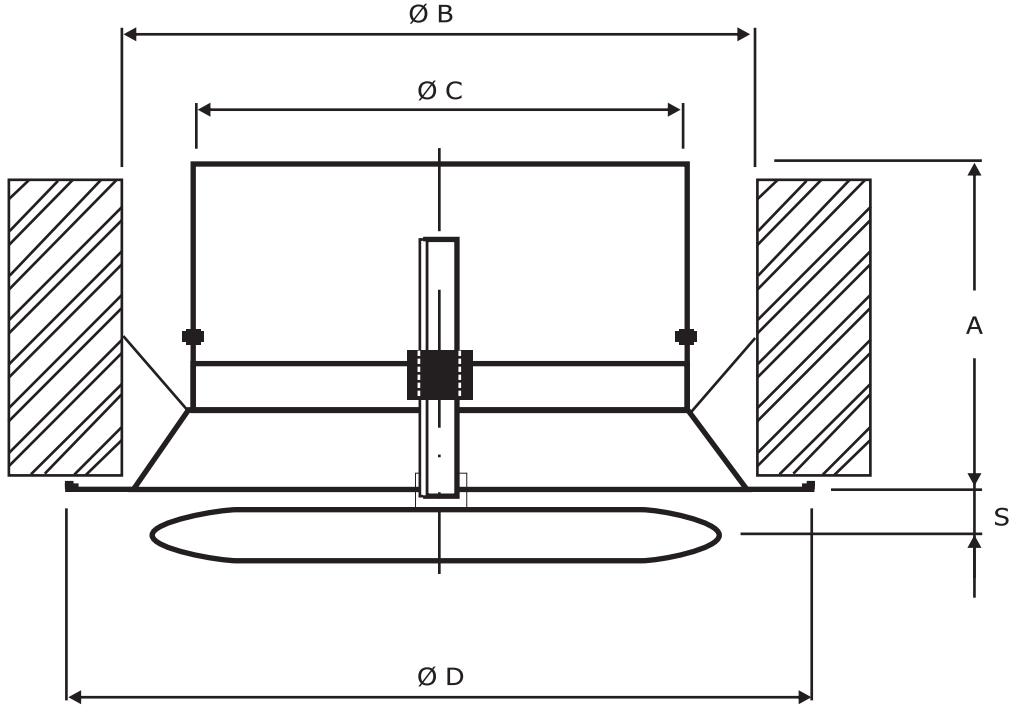

They are manufactured from aluminum. Standard plating is done with electrostatic powder painting in RAL 9010 and 9016 color codes.

According to the demand, other colors and anodized coating can also be done. They are produced as screwed in standard.
